

CYBERSECURITY TRAINING

The first cyber certification training, conducted by a virtual coach and complemented by physical coaching from cybersecurity experts.

9 out of 10 employees report a lack of cybersecurity training. (Istorage)

Don't let your team expose themselves and your company for lack of cyber knowledge.

FOLLOW THE CYBERSECURITY TRAINING OF UBCOM AND TINYCOACHING

Tiny virtual coach

A UBCOM cybersecurity expert coach

A state-recognised certification

About: UBCOM is a Swiss strategic cybersecurity and secrecy protection agency, founded in 2014. UBCOM acts in cyber risk prevention and protects the tactical and strategic information asset of companies. The agency offers concrete solutions in cyber defence, secrecy protection and digital sovereignty. Its mission is to protect the economic interests of international players in the global marketplace against economic intelligence and corporate spying.

About: Tiny is the first professional virtual coach available on instant messengers. It was created to provide every employee with a coach to help them develop their career and skills. Equipped with artificial intelligence, Tiny knows the training needs of learners.

TRAIN YOUR TEAMS IN CYBERSECURITY AND STRENGTHEN THE PROTECTION OF YOUR COMPANY

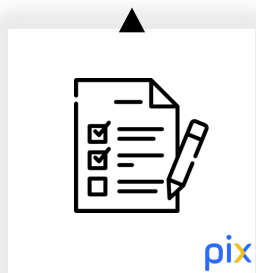

The **Cyber Security Training course** teaches you **good digital practices** and **reduces your risk of cyber-attacks**, thanks to the contents of Cyber Security and High-Tech Culture from the “For Dummies” collection.

Thanks to the **Tiny virtual coach** available 24 hours a day on the support of your choice, you benefit from **continuous accompaniment** via:

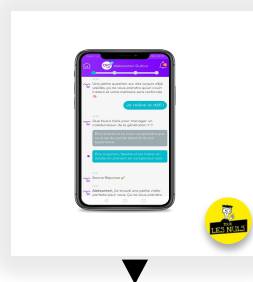

HOW DOES THE CYBER SECURITY TRAINING COURSE WORK?

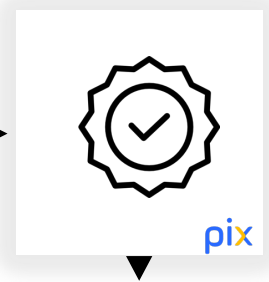

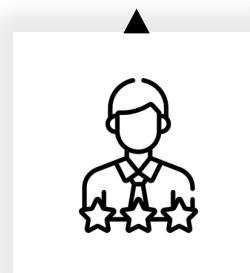

Diagnostic to map your cybersecurity knowledge

Cyber coaching workshop with a UBCOM expert

Continuous training with the **virtual coach Tiny** available on any support, based on **neuropedagogy***

Certification available at the end of the training course to **guarantee the cyber maturity of your teams**

* Convergence of 3 disciplines: neuroscience (brain science), psychology (study of human behaviour), and pedagogy (study of the relationship between the learner and the content to be learned).

WHY CHOOSE UBCOM'S CYBER TRAINING ?

A cybersecurity training course conducted with the best **technical and educational experts**.
