

CYBERMANAGER

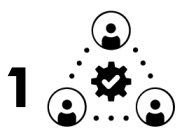

Would you get on a plane flown by a bus driver ? No. **Neither would we.**

Cybersecurity is not limited to the security of information systems.

An antivirus is not enough without expert advice.

Don't let your team expose themselves and your business through a lack of cyber knowledge.

PERFORM AN AUDIT WITH CYBERMANAGER

1

Measure your teams' **cyber exposition** and their **digital awareness**

2

Detailed reporting :
Full vulnerabilities analysis and amelioration axes identification

About: UBCOM is a Swiss strategic cybersecurity and secrecy protection agency, founded in 2014. UBCOM acts in cyber risk prevention and protects the tactical and strategic information asset of companies. The agency offers concrete solutions in cyber defence, secrecy protection and digital sovereignty. Its mission is to protect the economic interests of international players in the global marketplace against economic intelligence and corporate spying.

MEASURE YOUR CYBER PERFORMANCE AND MATURITY AT A GLANCE

The CyberManager audit is carried out **through a half-day group workshop with your team members** to assess their cyber maturity and improve it.

WHAT ARE THE PILLARS OF CYBERMANAGER ?

Using more than **300 questions** from the major international benchmarks, we analyse your company's level of cyber awareness across 6 pillars:

Governance

Address to good management and organisational practices

Human Resources

Train and educate your teams to protect data and their business

Legal

Verify the level of coverage and ensure that current IT service contracts are valid

Technology

Evaluate your technical debt to meet the law and reduce cyber risks

RGPD

Ensure that your data management is compliant with EU regulations

Social engineering

Educate your teams on secrecy, loyalty and integrity

« With Cybermanager, there was a before and after.
Following the audit, we produced a **real master plan that allowed the organisation to start a continuous improvement of its compliance** and to involve the IT department in all the Group's projects. »

Financial Director of an industrial food group

WHY CHOSE CYBERMANAGER WITH THE UBCOM EXPERTS ?

CyberManager is a **fast and efficient tool** that democratises the vision of your cyber resilience. It allows you to comply with **international standards** (ISACA, EBIOS, COBIT, SOX, BAL3, ISO27000, RGPD...).
